

Skill Summit 2018, Momentum Jharkhand

Government of Jharkhand has put Skill Development at the forefront of all development activities in the State. Jharkhand Skill Development Mission Society (JSDMS) aims to establish Jharkhand as the “**Skill Hub of India**” in the next five years. In this direction the State Government is organizing a flagship event – **Skill Summit 2018, Momentum Jharkhand, on 12th January 2018, the birth anniversary of Swami Vivekananda and the National Youth Day, at Tana Bhagat Stadium, Ranchi.**

The summit will focus on:

- Improving the Skill Ecosystem in the state and providing an opportunity to the prospective stakeholders to understand the potential and offerings of the State of Jharkhand.
- Providing a platform for various countries to share their ‘best practices’ and assist the state in formulating a successful skill implementation strategy.

In order to demonstrate the employability of the skilled youth of Jharkhand, Honourable Chief Minister will distribute 25,000 Job Offers to the youth of the State. Several Ministers, Secretaries, Ambassadors, Foreign Partners, Sector Skill Councils, Industry leaders and employers, Training Partners and several other delegates will be attending this historical moment. Partners from 6 countries are planning to be a part of this splendid moment. We are expecting that more than 500 delegates will attend the day long event.

Providing 25000 Job offers in the last two months was not an easy task by any means. An interesting journey of approx. 175+ campus placement drives across the state has been organized in 14 purpose built Placement Centres with various prestigious organizations who shortlisted youths as per their talent standards and offered them jobs. Two Mega Placement Drives were organized at Jamshedpur & Ranchi.

500+ employers like Maruti Suzuki, Best Corporation, Dish TV, Eureka Forbes, Big Basket, Myntra to name a few, participated in such drives and hired trained youths from the State. While skill training is being provided in approx. 30 sectors in Jharkhand, some sectors like Apparel, IT & ITES, Electronics, Retail, Automobile, Tourism & Hospitality are very popular among youths and having huge ready to employ numbers whereas few sectors which are critical to economic growth of Jharkhand such as Mining & Minerals, Iron & Steel, Handicrafts & Agriculture etc. needed more attention to focus upon. JSDMS already signed an MoU with 32 Sector Skill Councils during the SSC Summit held on the 5th October 2017 in Ranchi.

Prior to the event from Jan 8th to 11th a series of open campus drives for various sectors would be organized at Khel Gaon and any skilled from Jharkhand who has got trained under NSQF (National Skill Qualification Framework) courses can get a job over there. Summit will include three sectoral seminars and more than 30 international class exhibition stalls, demonstrating the skill ecosystem of Jharkhand. Jharkhand Skill Policy will also be launched on 12 January 2018 to provide several attractive package to potential Training Partners and will attract the investment in the skill ecosystem of the State. The Skill Summit 2018, Momentum Jharkhand will lead to an upliftment of the Skill Ecosystem of Jharkhand.
